wine by the glass—chardonnay, cabernet, merlot	\$5.00

local & sustainable

A commitment to local and sustainable was the mother of invention in 1964 when the first farm stand was fashioned to sell apple butter made from hail-damaged apples. This creative and conscious approach continues today at what grew to become the farm basket.

From local foods and ingredients, to environmentally friendlier disposable products, farm basket makes sustainable choices that benefit all of us.
